SKILLS SUMMARY

- **Cyber Security**: Web Security, OS, Vulnerability Management, Log analysis, OWASP 10, Security Principles
- **Tools**: Nmap, Wireshark, Maltego, SET, Burp Suite, Metasploit, John The Ripper, Hashcat,
- **Languages**: C, C++, Java, Python, Shell Scripting
- **Web Technologies**: HTML, CSS
- **Soft Skills**: Effective Communication, Accountability, Rapid Learning & Adaptability, Time Management

PROJECTS

Linux System Automation & Security ToolKit || GitHub — May 2025 – Oct 2025

- Developed an automation toolkit using Bash for system monitoring, maintenance, and security.
- Implemented disk storage monitoring with automated email alerts triggered by threshold limits.
- Created periodic configuration backup scripts using cron for system integrity and recovery.
- Built SSH brute-force detection logic to automatically block malicious IP addresses.
- Developed CPU, memory, and RAID health monitoring scripts with alerting mechanisms.

SSH Honeypot and Intrusion Detection System || GitHub — Feb 2025 – Mar 2025

- Configured and deployed an SSH honeypot using Cowrie on Linux to simulate vulnerable services and capture unauthorized login attempts.
- Developed Bash scripts to parse honeypot log files and extract attacker IP, login attempts, and activity details.
- Implemented threshold-based detection logic to identify repeated brute-force login attempts from suspicious sources.
- Integrated firewall rules using iptables to automatically block malicious IP addresses detected from honeypot logs.
- Created automation scripts to generate reports, trigger alerts, and combine monitoring and response actions in a single workflow.

TRAINING

Red Hat System Administration Summer Training || *Red Hat* || Certificate — Jun 2025 - Jul 2025

- Completed comprehensive training in Red Hat Linux system administration, covering user management, permissions, networking and SELinux.
- Gained hands-on experience in troubleshooting system issues and managing core Linux services.
- Learned system security fundamentals, including access control, process management, and log analysis.
- Developed shell scripting skills to automate administrative tasks and improve system efficiency.
- Worked with service configuration, cron jobs, and essential RHL administration tools in practical lab environments.

CERTIFICATES

- Cyber Security 101 | TryHackMe | **Certificate** — Oct 2026
- Google Cybersecurity Professional Certificate | Coursera | **Certificate** — Sep 2026
- Red Hat System Administration (RH124) | RedHat | **Certificate** — Jul 2025
- Red Hat System Administration (RH134) | RedHat | **Certificate** — Jul 2025

ACHIEVEMENTS

TryHackMe — Feb 2025

- Ranked Top 4% Globally among 4M+ participants
- Achieved 20 badges and Completed 125+ rooms

EDUCATION

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering — Aug 2023 – Present
  CGPA: 6.80
- **Vamsi Jr College** — Andhra Pradesh, India
  Intermediate – MPC; Percentage: 91 — Jun 2021 – Mar 2023
- **Sri Swamy Vivekananda School** — Andhra Pradesh, India
  Matriculation; Percentage: 100 — Mar 2020 – Apr 2021
